PROTECH

Protech Payments by Clover Connect

Protech uses Clover Connect, a seamlessly integrated, secure payment processing solution, to simplify transaction management. Formerly Card Connect, Clover Connect is a leading provider of technology-enabled payment processing for North American merchants and is now part of the First Data/Fiserv family.

With Protech Payments by Clover Connect, you can manage all your transactions directly inside the platform at the heart of your organization – your Association Software Platform.

Improve Productivity with Streamlined Operations

All processed payments feed directly into your Protech software to simplify the reconciliation process. Gone are the days of managing multiple systems!

Be Confident in Robust Payment Security

Innovative security features like point-to-point encryption and tokenization allow you to protect sensitive cardholder data and reduce your PCI scope.

Achieve Greater Visibility with Centralized Data

When membership, pricing and transaction data are all in your Protech association platform, you will have full transparency and deeper insights into all activities.

Protech Payments by Clover Connect

Two technologies working better together.

It's vitally important to have the right tools in place to ensure operations are always running smoothly. That's why Protech has combined our powerful association software platform with seamlessly integrated payment processing to create the ultimate business management tool.

As you continue to grow and scale your business, Protech will be by your side through the entire process—from purchasing Protech Payments by Clover Connect, through implementing the solution and going live, to ensuring top-of-the-line, on-going support.

Offer credit, debit and ACH processing for all online member transactions.

Start processing transactions fast with a Rapid Conversion plan.

Get up-to-the-minute analysis with real-time reporting in a modern portal.

Minimize disruption to revenue streams with next-day funding.

Enjoy easy access to single-vendor support directly from Protech Customer Care.

Reduce the risk of lost revenue by keeping payment information current with Card Account Updater

Availability

Protech Payments by Clover Connect is available for UX 8 and UX 365. Updating your payment processing gateway now will eliminate the need to focus on switching gateways during the UX 365 project.

To learn more about Protech Payments by Clover Connect, please schedule a meeting, email Stephen.Mangiulli@ProtechAssociates.com or call (301) 547-9436 and Stephen Mangiulli will help you get started.
